Bank Charter To Be Sought

A group seeking to establish a state bank in Canyon is expected to file an application for a charter in the near future.

No action on the application is expected for several weeks. If a charter is granted the new firm will be known as West Texas State Bank of Canyon. President of the new bank will be David Levens.

Levens said the proposed bank is capitalized at \$500,000 and the money all is on hand. He said the bank will have 210 stockholders with 97 percent of that number being residents of Randall County.

Proposed board of directors includes Clarence Beckman, Dr. J. Manly Bryan, Dr. Leta

Boswell, Clay Cooper, Hosea Foster, H.R. Fulton, Jr., David Levens, Kelley McGehee, Milton Morris, Virgil Henson, John Williams and Dr. W.J. Wooten, Jr.

Cooper, Foster and Levens went to Austin Monday to file application for the charter.

In Austin, the group seeking the new bank is represented by Judge W.W. Heath and Will Davis, Austin attorneys. If the charter is granted, the state bank will be housed in a building owned by T.S. Stevenson, Sr. The building is located at the corner of Fourth Avenue and Fifteenth Street and once housed Canyon First National Bank.

Levens, 30 years old, is a native of Abilene. He grew up on a farm at Roby and attended Texas Tech and McMurray. He holds a certificate from the Banking School of the South at Louisiana State University.

He has had 12 years of banking experience, the past four having been with Security National Bank at Roswell, N.M.

The prospective bank president and Mrs. Levens are now making their home in Canyon. They have one child, a daughter, Angela who is 7 months old.

Asa Atchley In Hospital

Asa Atchley, former Canyon policeman, remains in serious condition at Northwest Texas Hospital in Amarillo following an accident Sunday afternoon.

The accident occurred east of Canyon when Atchley fell from a horse he was training.

According to reports, the saddle which Atchley was riding slipped and the rider fell, injuring his head and one shoulder.

He was rushed to Neblett Hospital but was transferred to Amarillo Monday.

Reports from the hospital show Atchley in serious condition but improving.

Atchley is presently foreman of the Bob Wilkinson ranch.

Vars Named VP Of Bank

Don Max Vars of Tulia has been named vice president of the First National Bank of Canyon.

Vars, a 1956 graduate of Tulia High School, will assume duties here Monday.

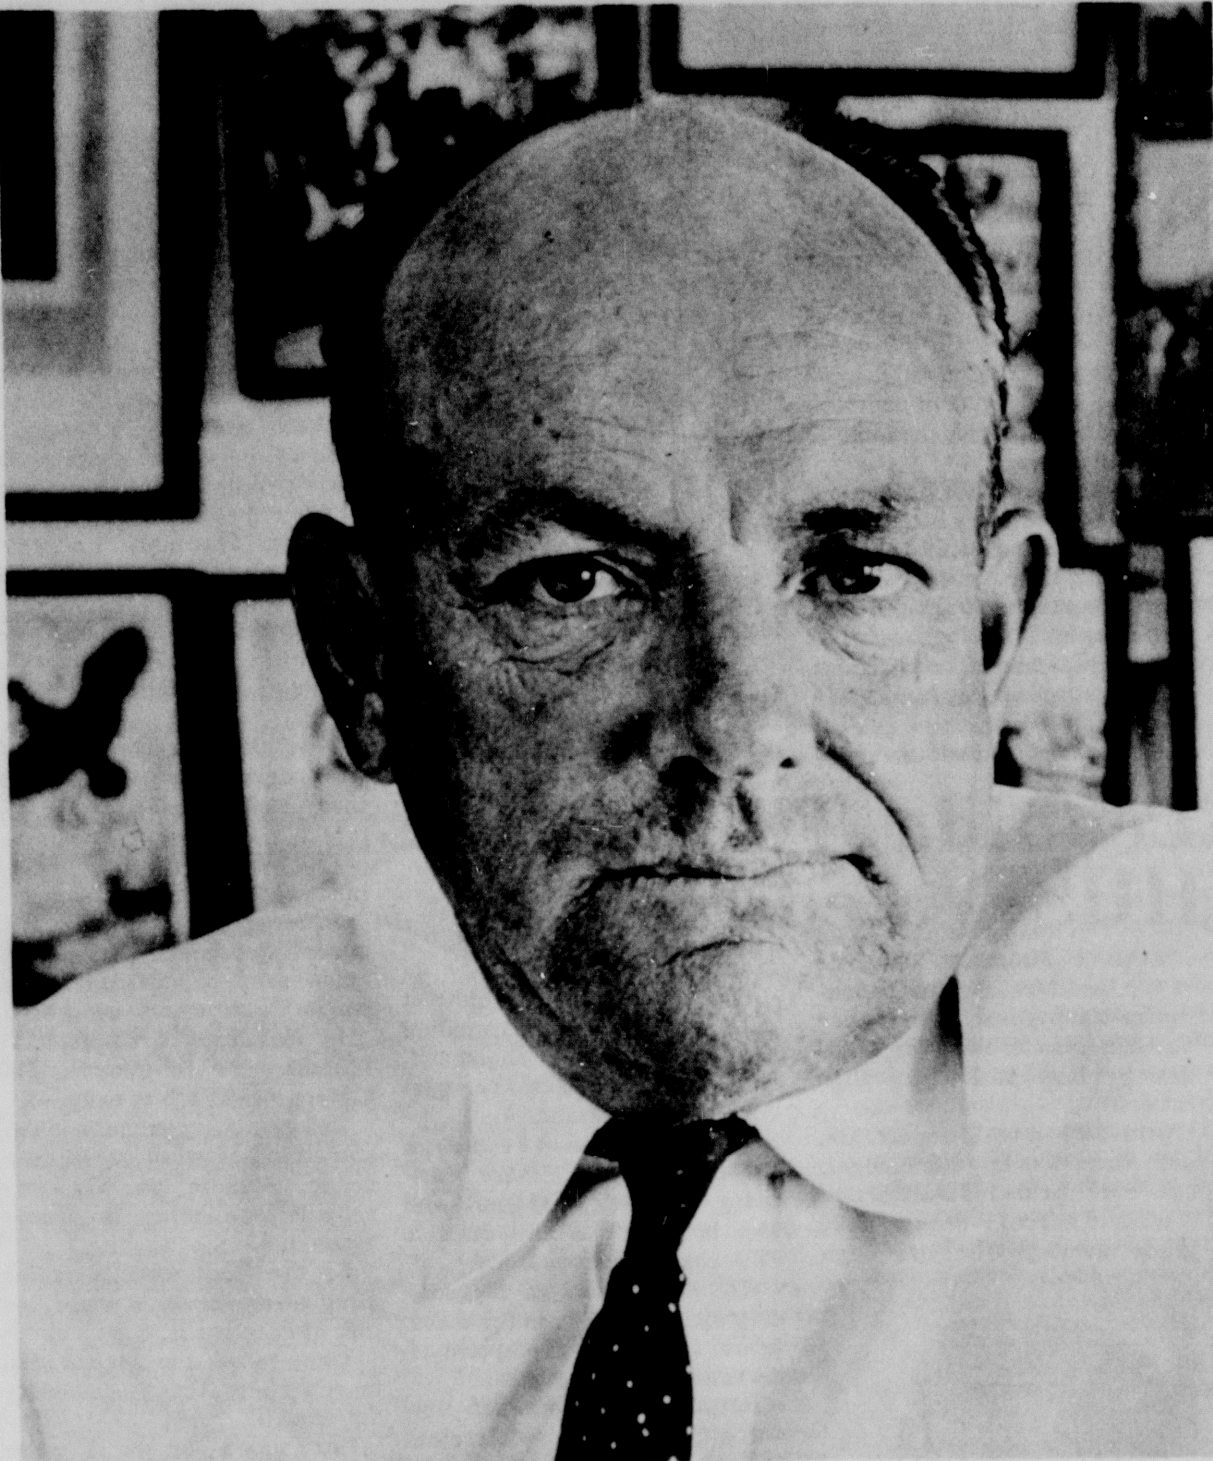

He was born in Tulia, and following graduation attended Texas Tech in Lubbock. He graduated in 1960 with a BBA degree in finance. At Tech he was a member of Pi Kappa Alpha social fraternity, and Delta Sigma Pi, business fraternity. Vars was also active in Saddle Tramps, service organization at Tech.

He began work in January of 1961 as an assistant national bank examiner, and in October of last year he received a commission as a national bank examiner. He has been located in the Amarillo sub-district for several years.

He married Lila Gay Buske June 30, 1962 in Friona. The couple has one daughter, Mayla Dawn, 2 years old. They are members of the Baptist church.

Commissioners Study Library Building Plans

Commissioners court Monday discussed possible county participation in purchase of the old Calvary Baptist Church building for use as a library building.

Commissioner Glenn Dowlen told the court of a 120-day option to buy the building for \$35,000. Appraised value of the property is about \$61,000. The building has 9,183 square feet of floor space, he said.

Commissioner Bill Butler asked about costs for remodeling the building for use as a library. No estimates were available.

The proposal came up for discussion at a meeting of the city commission Monday night.

One proposal advanced stipulates that the city and county

each participate in purchase price in the amount of \$12,500 with the remaining funds to be raised through donations.

Neither governing body took action Monday.

Santa Fe Railway officials, in a letter to the court, expressed interest in the Santa Fe paying half the cost of installing a flashing warning signal at the Santa Fe crossing of the Farm to Market road due south of Canyon High School. The remainder of the cost would be stood by Precinct 2.

Commissioners voted to turn to state maintenance some 17.5 miles of paved county roads. These roads will become a part of the state's farm to market road system.

The state accepted 5 miles

of road in Precinct 2 running from the end of FM 1705, now under construction, north to FM 1714 with the understanding that Precinct 2 will pay \$8,500 for repairing it.

The court authorized the advertising for bids for an addressing machine and bookkeeping machine for the office of the tax assessor-collector.

Commissioners studied a request by the county Historical Society for funds for purchase of several historical markers.

Randall County Criminal District Attorney George Dowlen told members of the court that acoustics are poor in the district court room. He said even the jury has difficulty in hearing testimony given on the witness stand.

Dowlen said electronic equipment was tried in the court room but did not prove satisfactory.

There was some discussion of lowering the court room ceiling and taking other steps to improve the acoustics there. No action was taken.

Tax Assessor-Collector Bill Money said addition of irrigation wells has upped some land

Fish Rodeo Is Saturday

Annual Junior Chamber of Commerce Fish Rodeo will be held Saturday, May 22, three miles west of Canyon.

Trophies for the largest fish by weight and the largest string of fish will be given in three divisions.

The age groups will be preschool, 6-9 years, and 9-12 years.

Rodeo begins at 10 a.m. and presentation of trophies will be made at 3 p.m., according to chairman Howard Morris.

Bait will be furnished, but youngsters should bring poles, lines and hooks. The rodeo will take place on the Doug Rittenberry creek. Signs will lead the way to the Rittenberry farm, located approximately two miles west and 1 mile north of Canyon.

A concession stand will be operated by the Canyon Jaycees during the day.

Tax Study Survey Begins Wednesday

Canyon School District's new elementary school in South Amarillo will be known as the Gene Howe Elementary school.

Canyon trustees Tuesday night voted to name the new school building in honor of the late publisher of The Amarillo Globe-News.

For many years Howe wrote a daily column titled "The Tactless Texan" for his Amarillo papers. He was better known as "Old Tack" than he was as Gene Howe.

Howe's material contributions to the Texas Panhandle were many and varied. However, his greatest gift to his adopted Panhandle probably was spiritual. His column, filled with horse sense laced with humorous nonsense, comforted and cheered his readers through two wars, the dust bowl and a depression.

Howe was a native of Kansas and the son of another famous newspaperman, Ed Howe, the Sage of Potato Hill. Gene Howe was so vehemently

Texan that Time Magazine was impelled to say of him in 1951: "There's no Texan like a Texan born some place else."

Howe's widow and daughter, Mrs. Shelby Kritser, both live in Amarillo.

Board members also agreed to let employees of McMorries and Company of Amarillo begin personal examination of city property on the school tax rolls.

"We will check each piece of property in the city first," said Jim McMorries Tuesday

WT Changes Housing Regulations

A change in West Texas State University off-campus housing regulations will go into effect in September of this year.

According to Dr. T. Paige Carruth, dean of student life, all unmarried students will be required to live in university residence halls, unless students meet certain exception rules.

Students commuting from home, students with a senior classification of 90 semester hours or more, and students who obtain special permission from Carruth or the Dean of Women Ruth Cross will be exceptions to the regulations.

Single students who are permitted to live off-campus must live in university approved housing. Approved housing consists of rooms or apartments that are in the same residential structure as that occupied by the owner.

"In every instance approved off-campus housing for single students must be approved by this office prior to the time students establish occupancy," Carruth said.

"No large apartment projects are approvable," Carruth said.

Area Schools End Semester

Baccalaureate and graduation ceremonies are scheduled at three area schools this week.

At Umbarger, some 10 eighth graders will receive graduation diplomas from Randall County Judge Lloyd King. The ceremony will begin at 2 p.m. Friday in the Umbarger school.

Baccalaureate services at Happy and Canyon are scheduled Sunday night.

Beginning at 8 p.m. some 34 Happy High School seniors will hear Father Richard Meiler of the Holy Name Catholic Church give the baccalaureate address.

Baccalaureate services will begin at 8:15 o'clock in the Canyon High School auditorium.

Tears, Not Flowers For Her

Spring often brings something other than flowers and sunshine for Mrs. Dorothy Lou Barnard, 49 years old, Amarillo.

Mrs. Barnard suffered a broken arm early Tuesday morning when she fell from a top bunk in her Randall County jail cell. Sheriff L. S. "Slim" Johnston said the bunk is about five feet above the floor of the cell.

Deputies said the mishap occurred about 3:30 o'clock. Mrs. Barnard had been arrested about two hours earlier by city police.

She is charged with driving while intoxicated.

She was hospitalized through Tuesday night and was dismissed from the hospital Wednesday morning.

Sheriff's Department records show Mrs. Barnard has been arrested three times previously. Her previous brushes with the law here--in 1957, 1960 and 1962--all were in April.

Museum Puts Off Bid Date

Final steps in bid preparation were postponed Monday night by the Panhandle-Plains Historical Museum executive board.

Board members voted to collect another \$200,000 before more plans are made concerning the proposed addition to the present museum.

Architect John Hannon of Amarillo said final building plans should be complete in three weeks for the board's approval.

"The board felt that more money should be raised before they advertise for bids," said museum curator Boone McClure.

Baptist Building In Mill

Calvary Baptist Church Tuesday completed a transaction for a tract of land which will be the site of a new church building.

The tract, 300 feet by 300 feet, is located at the corner of Eighth Avenue and Eighth Street, northwest of Canyon High School. It was purchased for \$15,000 from R. D. Baker of Groom.

Baker contributed \$3,000 of the purchase price to the church.

Rev. Jack Boyett, pastor, said a \$100,000 building will be erected on the site. The new building, scheduled for completion by November, will accommodate 400 people.

The church now has an active membership of 280. Children and visitors bring regular attendance to near the 400 mark.

The building presently occupied by the church is located at 605 Fourth Avenue.

Educator To Speak

Dr. Peter H. Lee, executive secretary of the Hong Kong Baptist College, will be speaker for the morning worship service at Calvary Baptist Church Sunday.

Dr. Lee holds doctorates in philosophy and theology. He is a special representative for the State Department in the Far East.

Connally Says No On Board

Gov. John Connally Thursday of last week vetoed a bill which would have provided a separate board of regents for West Texas State University.

In a message to the Senate, Connally quoted from his message delivered to the legislature when it convened: "Proliferation of governing boards is retarding the development of a coordinated state system of higher education designed to achieve excellence."

We are battlegrounds for wars between the "good" and the "bad" within us--and the "bad" often infiltrates the "good" in the guise of righteousness.

A Field of Oil--Louis Hinder, right, and Harold Rousser of Tulia examine bubbling crude oil as it flows from a pipe that broke on the Hinder farm east of Canyon Monday morning.

Rousser saw a 200 foot spray when the line broke, spewing oil over some 13 to 15 acres of land. Estimation of damage to the land had not been made by mid-week.

by Troy Martin

FROM THE CANYON RIM

I was delighted Tuesday night when the school board voted to name the new elementary school in South Amarillo in honor of the late Gene Howe.

Seventeen years ago this month I returned from lunch to my desk at The Lawton, Okla., Morning Press and found a telegram on my desk that was to have a profound influence on the remainder of my life.

The message was from Fred Post, city editor of The Amarillo Globe-News. He asked if I would be interested in a job. I had always dreamed of working for the Howe papers and I let no grass grow under my feet so eager was I to return to the Panhandle.

The Globe was the biggest paper for which I had ever worked. To me it seemed a giant of the publishing business. I spent several weeks getting acquainted with fellow employees.

Howe was away on a fishing trip. I'll never forget how I finally met him.

I brushed into a serious looking fellow at the back of the newsroom one August morning in 1948.

"I'm Troy Martin and I'm new here," I offered sticking out my hand. "I'm Gene Howe and I'm glad to know you."

my boss of two months declared taking my hand.

To me, a cub reporter, it was like a young lieutenant getting to chat with Douglas MacArthur, a bush leaguer talking to Dizzy Dean.

He wrote under the name of "The Tactless Texas." He was "Old Tack" to his thousands of readers but to this cub reporter in 1948 he was a great man of journalism. That's how I thought of him then and that's how I think of him now, a dozen years after his death.

He was indeed a great man in his adopted Panhandle. Panhandle people a hundred years from now still will be enjoying fruits of Gene Howe's efforts.

In crucial years of development—often trying years—Old Tack kept the Panhandle working and laughing. Panhandle women, he wrote have the world's prettiest legs, made strong and muscular by leaning against the fierce Panhandle winds. Panhandle dogs are tougher; Panhandle skunks twice as odorous. In the dust bowl days he boasted that no other place on earth could produce dust clouds as suffocating as those encountered in the Panhandle.

Stevenson Pontiac is going to get thousands of dollars worth of free publicity during football season.

The new Pontiac house across the E-Way from the stadium will be on display before thousands of football fans.

We jokingly suggested to T. S. Stevenson, Jr., that he set up a loudspeaker on his lot and read commercials at half time during football games.

Back in 1935, Maury Maverick, in congress from Texas, was insisting that communists posed no internal threat to the security of this country.

Since that time we have seen communists infiltrate our very government in high positions.

We refer specifically to Alger Hiss, a State Department official who helped write the United Nations charter and undoubtedly put this country at a disadvantage. We've seen our military secrets stolen and this country beset by communism on all sides.

Still, after 30 years liberals continue to sing the Maury Maverick song. There is no internal threat from communism they say in spite of overwhelming evidence to the contrary, gathered by the FBI and other security agencies.

"I believe our new 'preventive defense' policy is well designed to cope with the varying communist threats and to gain world peace. I support our President in that policy, and I hope all Texans will do likewise."

The above is an excerpt from a weekly newsletter from Senator John Tower.

How does our senior senator stand on this vital issue? Normally the only thing we hear from Senator Ralph Yarborough is some half baked plan to give away some money that doesn't belong to him.

*** Browsing in the West Texas State University library last Sunday we ran across a news magazine from 1913.

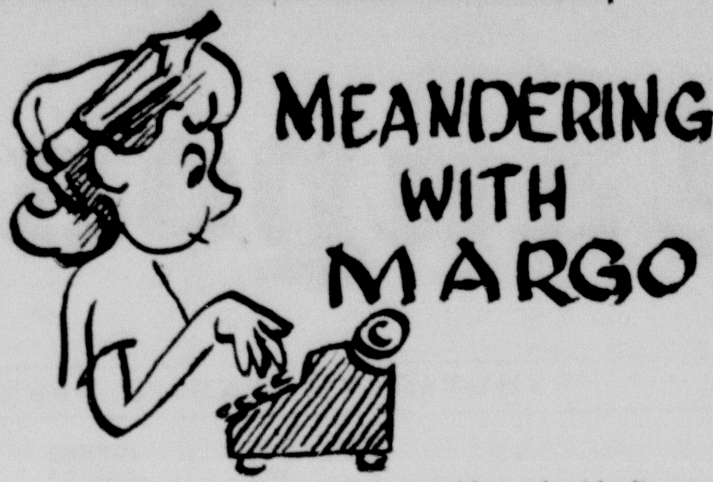

One of the major problems of the day was poverty in Appalachia.

More Rains, Big Smiles

Another .56 of an inch of rain fell last Thursday in Canyon bringing the month's total to 1.43, according to Dr. M. B. Measamer, professor of geography at West Texas State University.

Pea-size hail also pelted the area during the storm, which swept across the Panhandle late Thursday afternoon.

The year's total stands at 5.09 inches of rain, higher than a year ago.

Canyon High Student Council members surprised principal Hobart McDonald Tuesday night with a dinner.

It seems rather simple, but background to the dinner brings out some details which make the event rather special.

McDonald, serving his first year as high school principal, knew the students at CHS because of his one year as counselor.

Student body as a whole trusted this man, although few understood him.

But when he took the wheel as "big boss" of the high school, the entire student body began to realize what they had in their leader.

During his year as counselor, he had to exert very little authority. But as principal, he had to be boss, and they realized just how strong he could be if called upon.

But the change in positions was as simple as switching offices.

McDonald handled any pro-

blem quickly and with directness. He smoothed situations out, keeping his finger on what was going on in and around his school.

He has worked closely with the student council this year, saying at one time, "This is the best bunch of youngsters I have ever worked with."

He meant it and the kids knew he meant it.

Constantly keeping in the background, McDonald worked through the council to make Canyon High one of the outstanding schools in the state.

"I let the students handle most of the problems," he once explained. "They can clear a situation up a lot faster than I can."

So, quietly, yet efficiently, McDonald guided students and faculty through a busy year. He's a master at staying back, letting other people get the credit for work usually planned by him.

He has that wonderful knack of underground organization--

so subtle, yet oh so effective.

So the surprise dinner Tuesday night, was not a formal "have-to" affair. Student council members realize fully what McDonald has offered and contributed to the school, and to their lives as individuals.

Jody Sheets, president of the council, said Friday when accepting the Canyon High School Award, "I want to thank Mr. McDonald for the help he has given. This has been made possible because of him."

When you accept an award from the high school, you can't help but realize the large part this "organizer of youth" has played in making that award possible.

The dinner Tuesday was a quiet affair, very fitting for this man who works so silently.

--- I was made an honorary student of Canyon High School during an awards assembly Friday. McDonald made the presentation, which took me by complete surprise.

He had called me earlier in the week and asked me to cover the assembly, and I agreed. Then he said something about sitting on the stage.

Well, truthfully, I thought he wanted me on the stage to insure coverage. But I said okay.

After I returned to the office from the assembly, I received a phone call from Superintendent Huelyn Laycock.

"This is the student officer, and I have been checking--why haven't you been in class lately?"

I decided this honorary student business may include more than I had reckoned for.

How do you go about thanking people for such honors? A newspaper man's job is to cover the news. This job is made easy or difficult by the people with whom he works.

In the case of the public schools here in Canyon, The Canyon News' job is easy. Before coverage can be given, something of news value must occur. And in the Canyon schools something is always happening.

So the first step is rather simple--the news is there, we just have to get it. Then comes the second step in reporting. This is gathering the news.

Here again our job is made simple. A phone call usually gets the news, or if a picture is needed, a run by the school and it is done.

And if by chance--and there are those chances--we miss an activity or honor, someone invariably calls to remind us.

A community newspaper must cover the community, the people and activities surrounding each individual.

But how well that job is done depends on the people in the community.

And the folks connected with the Canyon Public Schools make our job more than easy. They make it a pleasure.

So when the students, faculty and administration thanked me and The Canyon News for our work, I felt the tables should be turned.

The Canyon News and I thank you, parents, children, teachers, administrators, for making our job what it is--a joy.

Mr. and Mrs. Arlee Barnard of Lubbock were Sunday dinner guests in the home of his brother, R.E. 'Barney' Barnard and family.

Residents on the South rim of Palo Duro Canyon entertained members of Gourmettes, a cooking group at their meeting held Tuesday afternoon.

The Gourmettes, from Amarillo Air Force Base, traveled to various homes near Wayside where they were served food typical of Texas.

Before arriving at Doris Foster's home, the group stopped for a chat and some supplies at the grocery store in Wayside. "We got to see an old time Country store"--noted a spokesman for the group.

At Mrs. Foster's, the group observed many of her china paintings and had coffee and cookies.

Returning to Amarillo, the group stopped in the home of Pearl Burnett and re-visited Mrs. Mahler.

Bowling Champs Named Saturday

Pauline Thompson and Ken Hillier were named champions of the annual Bowler of the Week Tournament held last Saturday night at Canyon Bowl.

In the four game scratch competition Miss Thompson rolled 741 and Hillier 830.

Two more high school basketball players have signed with West Texas State University. Jimmy Viramontes, WT basketball coach, said this week Mike Mitchell and Mike Barber, both Roswell High School seniors, signed Monday evening.

Mitchell, 6-3, 175-pound guard, scored an average of 21 points per game, and was named to the all-state team for two years.

He will play in the New Mexico all-star game, which will be held in August.

Barber, 6-10 forward, weighs 205 pounds and had an average of 12 points per game with 10 rebounds.

Both boys were sought after by Kansas State, Wake Forest, New Mexico University, Arizona State University and Hardin-Simmons University, according to Viramontes.

"The boys were members of the state basketball championship team for two years," Viramontes said. "They were beaten in the finals this year."

This brings the total of freshmen signed with WT to 11.

"This is, if not the best at least equal to the best, group of freshmen I have ever been associated with," the WT coach noted. "Size runs from 5-9 to 6-10, and I think we have an outstanding bunch of boys."

Viramontes also pointed out that at this stage, the boys have excellent speed, size, depth, and overall balance.

"And they are all good students. Five of the 11 are honor students, and two are salutatorians of their classes this year."

2 Roswell Boys Sign As Cagers

Pauline Thompson had games of 174, 190, 213, 164. Her 213 also won the high game plaque in addition to the first place trophy. The second place trophy went to Tommie Rowel.

The men's trophy went to Hillier who rolled 238, 198, 210, 184. Fred Reese took the runner-up trophy and Len Attyd won the high game trophy with 256.

Entries had to qualify by winning Bowler of the Week honors during the regular season. Some 29 women and 19 men were entered in the competition Saturday night.

After sorghum has emerged, spray Atrazine to control weeds and grasses.

The idea is to spray Atrazine 80W herbicide right after sorghum has emerged, but before weeds are 1 1/2 inches high. This one application, moved to the weed root zone by rainfall, will control most annual broad-leaf weeds and grasses in sorghum for the entire season.

Control of weeds and grasses in sorghum with Atrazine can greatly reduce the need for cultivating. And so your crop goes through the entire season without weed competition for moisture and soil nutrients.

The results of weed control in sorghum are higher yields and lower production costs. And you can now graze or feed forage to livestock from treated sorghum fields 60 days after Atrazine application.

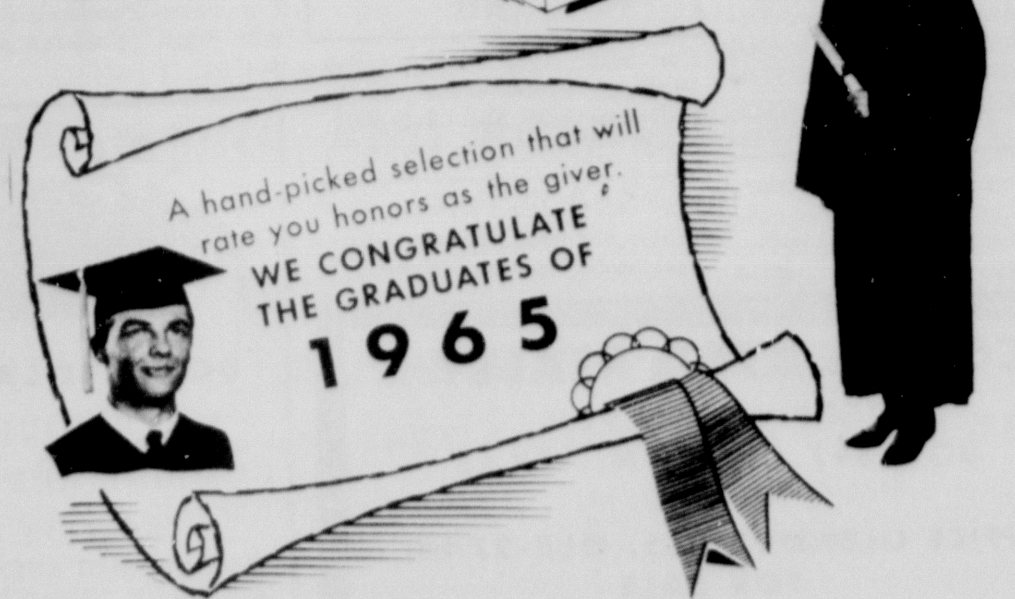

Contact your local supplier now for Atrazine 80W herbicide.

when he met with the trustees. "If the owner of the property is not at home we will leave a letter explaining the procedure."

Each piece of property in the school district will be remeasured and evaluated by the tax study company.

"We want to get all taxes equalized so everyone in the district realizes his taxes are fair," McMorris said.

The study, which will end in March of 1966, will cost \$22,800.

Luther Lawless, former Canyon teacher, was hired as principal of the new elementary school in Amarillo.

Lawless, a graduate of West Texas State University is 41 years old, and has taught in Happy, Canyon and Amarillo.

Easton Wall was hired as principal of the Canyon Junior High School. Wall, also a WT graduate, has had seven years experience in Stratford, Plainview and Hart.

Other teachers hired include Dave Corley, 31, as assistant football coach; Mrs. Lila Wall, physical education instructor in the elementary school; Mrs. Don Ward, junior high school English; Mrs. Jerry Wood, physical education; Mrs. Barbara Rolando, physical education; Mrs. Lorraine Johnson, English; and Mrs. Sharon Kester, high school business.

Board voted to tie onto the water line of the city of Amarillo.

Architect Russell Megert met with the board and explained that if the new elementary school is not taken into the city limits of Amarillo, the cost of the water would be \$4,414.60. If the city limits were extended to the school, the cost of installation would be \$3,300.

Cost of extending the pipe line from the point of tie-in with the city to the school property would be another \$2,246.

Board members also voted to tie onto the sewer line of the city of Amarillo. Megert said the price would be \$7,940.22, with a percentage due back to the school in rebates.

"The City of Amarillo feels that the water will be completed by September. The sewer service is still questionable," Megert explained.

Contracts for the city sewer and water services will be drawn up, according to Superintendent Huelyn Laycock.

Resignations of Mr. and Mrs. Hubert Butler were accepted.

Board authorized Laycock to take bids for furniture to be placed in the new elementary school, Rex Reeves Elementary School, the junior high and high school buildings.

Board members agreed to furnish 12 rooms in the new elementary school, for an estimated cost of \$24,255.

Furnishings in the high school building would estimate at \$10,255, and in the junior high building an estimated \$1,519 would be spent. The Rex Reeves Elementary School would have furnishings totalling an estimated \$3,549.

A proposed bus route for children attending the Amarillo school was submitted to the trustees.

Laycock said elementary school children living north of the Claude Highway would attend the school in Amarillo. The bus line would run across Washington Road west and dip south to include children in a development near Hollywood Road.

"Details will be worked out, but with this method, a bus won't have to travel north, south, then back north to the school, and back south to Canyon," Laycock explained.

At present, the total number that would be enrolled in the new elementary school would be 242 children. This number includes 40 students in the first grade, 40 in the second, 43 in the third, 46 in the fourth, 35 in the fifth, and 38 in the sixth.

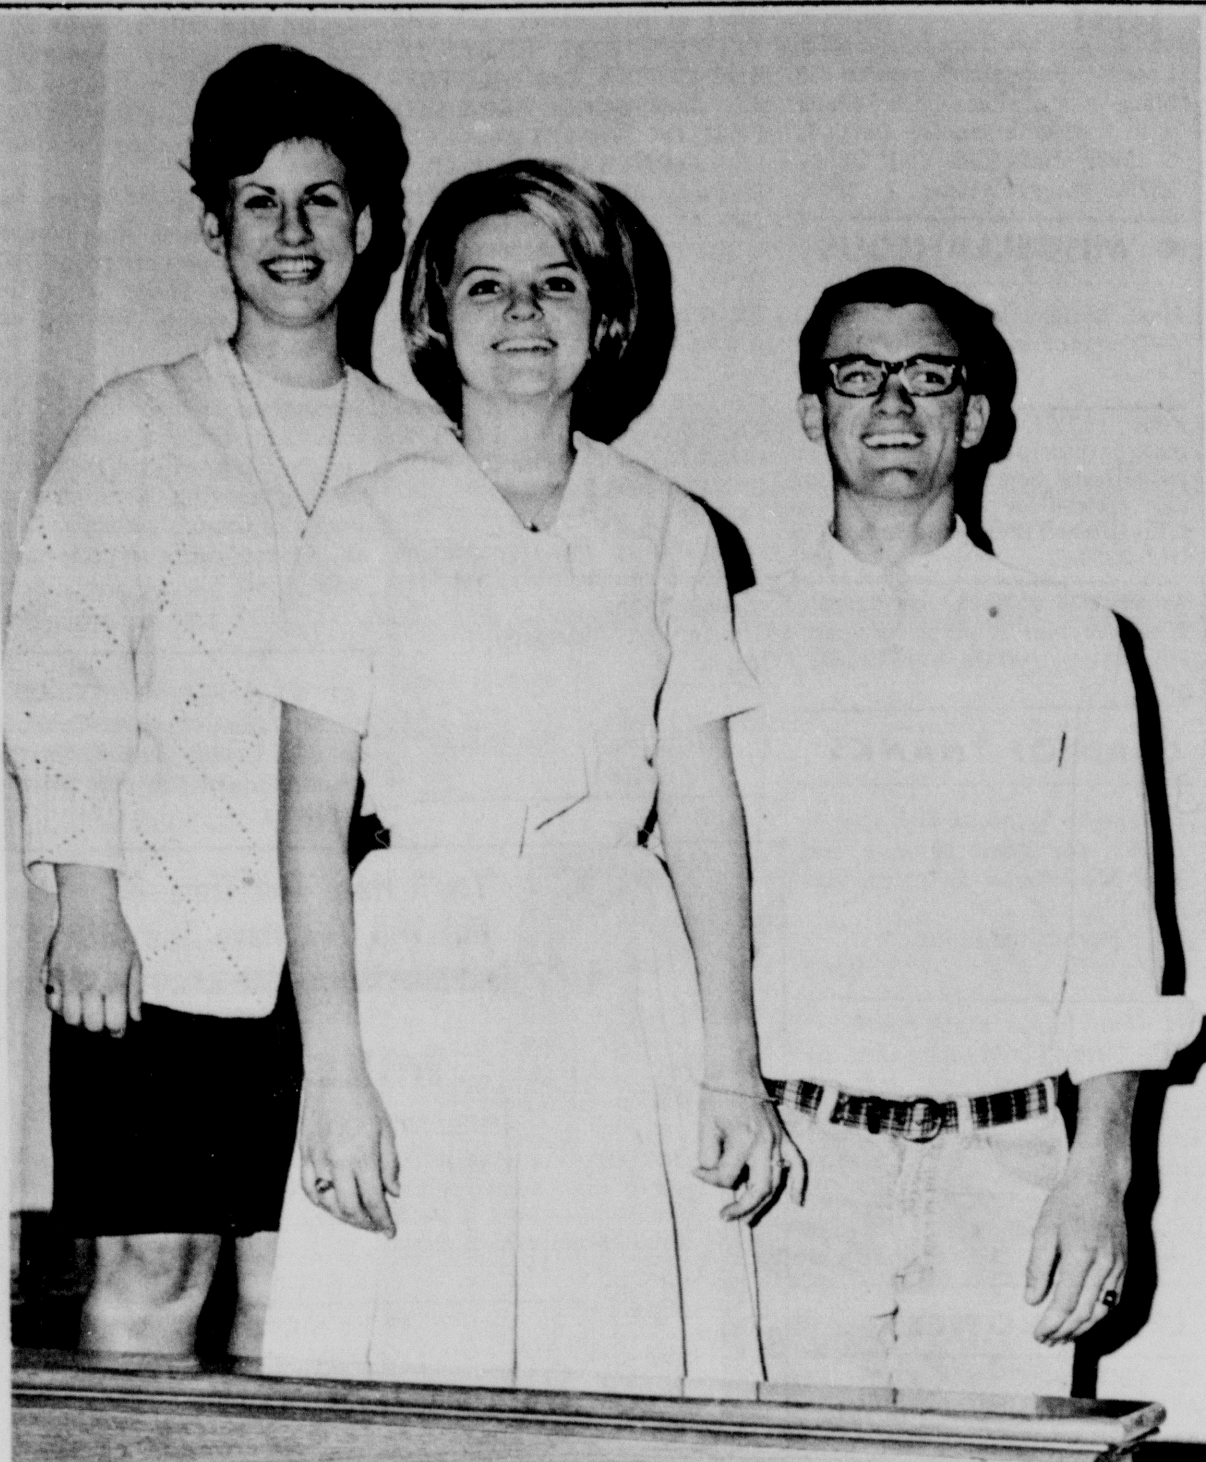

"We expect more children in the school, because we expect some development in the area around the school before September," Laycock pointed out.

A bid of \$750 was accepted from E.T. Cummings to do the audit work and report including all activity funds, luncheon funds, building funds and all regular funds.

Mrs. Charles Hughes Finds Students "Outstanding"

BY MARGO WILLIAMS

"People who run down the present teenage generation make me mad."

Mrs. Charles Hughes, mother of three and secretary at Canyon High School, should know a lot about the present generation of rock and roll, Beetle cravin' teenagers.

Mrs. Hughes has worked closely with high school students for the past 4 years. Until recently she was secretary to high school principal Hobart McDonald.

This year she assumed duties as secretary in the office of superintendent Huelyn Laycock. But her contact with the youngsters is constant.

"While working in the principal's office I saw the students daily," she recalled. "And I got to see the good and bad students. You get to know the kids and you learn to understand them."

And if anyone does understand this young generation, Mrs. Hughes is the one.

Through her close association with Canyon High students, she has grown to know each one as individuals, as a member of the student body and personally.

"About 99 per cent of the young people today are good, and the other 1 per cent are the ones we hear about," she noted.

"Canyon is fortunate to have the students we do, and we are fortunate to have the teachers we do," she continued. "You don't find students like we have here in a lot of towns."

Mrs. Hughes also gives credit to the youngsters of today.

"They have much more intelligence than I did at their age, and they use it."

This active mother was born in Ovalo, Texas, attended school, and married there in 1939.

The newlyweds moved to Warren, Arizona soon after their marriage, and later moved to Portland, Oregon.

"My husband entered the infantry and we moved all over the United States," she recalled.

From Oregon, the couple travelled to Arkansas, to Pennsylvania and back to Canyon, Texas.

By this time they had one son. "We took him everywhere," she said laughingly. "The first thing he remembers is climbing those steps in the Capitol in Washington, D.C."

"They use to let people climb to the top, and we just had to do it. Ronnie was only three then."

But in Canyon after the service, they settled down to rearing a family.

"I told myself I would never work, and I never intended to," she smiled.

But after a daughter, Lynda, was born, and a son, Neal, began school, Mrs. Hughes was

called on to start working. "I began school at West Texas when Neal began to school. I went a year taking courses at night, and then a friend called and asked me to start work," she reminisced. "I decided to give it a try."

So she started working in the registrar's office, and for two years she ably filled a position there. Then she was assigned to the Department of Public Services and worked there for two years.

And four years ago she was asked to work in the Canyon public schools.

"I love working in schools and with young people," she says of her work now.

But it isn't just the students she likes. Orla Hughes likes her work.

"Typing isn't work to me, it is a pleasure. I'm doing just what I like to do," she noted.

"And of course I love the students," she said. "I guess I have learned to understand

them by having three of my own."

"I learn much more from children than they will ever learn from me," she explained. "I took a Brownie group one time, and it certainly helped to keep my viewpoint young."

"I think you need to keep your viewpoint young, in order to understand youngsters. But it can't remain young. You must be able to think with children, teenagers and adults."

And to keep this youthful and active mind, Mrs. Hughes has found working with Sunday school classes at the First Baptist Church a big help. She is also active in the Eastern Star, and she takes night courses at WT each semester.

Apparently she has done a pretty good job with her own children.

Her oldest child Ronnie is a graduate of West Texas, and is presently stationed in Boston, Mass., with the Central Intelligence Agency. He and his wife Marla have a daughter, Alyson Paige.

The middle child, Lynda, a 1965 graduate of Canyon High School, received two scholarships to WT this year.

And Neal, a constant spark, is a sophomore at CHS.

"These students in Canyon, constantly amaze me. They are a good bunch, and they have a great deal of potential," Mrs. Hughes says as she waves at a group that passes the doorway.

Although that wave of a hand is just a small gesture, it has come to mean a great deal to the students who have worked with and who have enjoyed talking to Mrs. Orla Hughes.

Promise Of Rich Country Brings Pioneer To Plains

"I've got us a place."

With these words, a home on the staked plains of Texas was begun during September, 1891.

L.A. Donnell, a long-time resident of Canyon, was part of the family beginning the home.

Born in the Ozark Hills-Bend County, Missouri, Nov. 28, 1879, Donnell, his parents, two sisters and two brothers, moved to the Llano Estacado from Seymour in 1891.

During the summer of 1891, the Donnells made a prospecting trip to the plains.

"That country had had lots of rain and was a beautiful country. The lakes were full of water and grass was half knee-high. Pa came home with his mind made up to move."

In September we arrived in Silverton," Donnell remembers.

"Dad had at that time one wagon, one hack, five just common work stock, two colts, cows and calves. Coming by way of Matador, we pulled up the Caprock east of old Della Plains."

When the Donnell family arrived in Silverton, "Dad ate his lunch, and said he was going into town, then just one store. The town was already plotted out, however. Returning to the wagon, he said, 'I've got us

a place."

"The property was located 3-4 miles northwest of where we were camped then," Donnell recalls. "Dad said, 'He has a whole section. He wanted me to take it all but I just bought the half with the improvements. It is going to cost me \$75 and we are moving out in the morning'."

"When we arrived at the property, we found a dugout, 10x12, two stacks of hay, and new wire fence."

"We put everything we could

in the dugout, using it for a kitchen, dining room and parlor. The wagon was bedroom number one, while the hack, with 1x12 boards added to it, made bedroom number two for the boys."

"We wintered just fine, but I remember there were a few nights when it would be stormy, very dark and snowing, with the wind from the north. We would hold to each others' hands to keep from getting separated going from the dugout to the hay stack," Donnell says.

"We had to have food, fuel, and some kind of social activity. To get a sack of flour, we had to go to Amarillo, a six-day trip. We would leave Monday morning and get back Saturday after noon."

"I think it was in March 1892 that the county (Briscoe) was organized. We had county officials and later a court house, with an upstairs court room. For years that room was a free for all, for everything, and everybody."

"The first three or four years we harvested our crop with corn knives. Then, I remember, some fellow invented a slide, a slanting knife on the right side. You pulled it with a horse or mule and as it was pulled along, the knife would cut the stalks."

"Some time that winter, 1892, we had dug a well and in March, decided to go to Amarillo to get a windmill. Dad let me go along with him. We left home Monday morning and got to Amarillo Tuesday afternoon late."

They moved to the present home three miles west of Canyon in 1929. Donnell, and his wife, who died March 31, 1965, were parents of two daughters, and two sons, and grandparents of nine grandchildren and two great-grandchildren.

"That's how things were then," says Donnell of his story-telling; and tales of a vast promise, are now being realized.

Boy Scouts

Local Boy Scout members of First Methodist Church presented evening worship last Sunday in partial fulfillment for God and Country Awards.

The award, given to Scouts of the Protestant faith, is awarded by the church rather than Boy Scouts of America national council.

During the service, the boys reported on studies they had made in working for the award. "Theology of Peanuts," a study of the comic strip was one of the reports, presented by Bill Lumry.

Leading the service was Mark Olson. Others participating in the service were David Graham, Ronald Hager, Stoney Ormsby, Bryan Fassauer, Fred Richard, Sam Richard, Vance Robinson, Bobby Brotherton, Sheldon Johnson, Craig Parker, and Lumry.

It's rattler time again, as Sgt. A.M. Choate observes, holding a four-foot snake found last week end by members of West Texas State Reserve Officers Training Corps. The counter-guerrilla unit of ROTC, also while on simulated maneuvers northeast of Canyon, caught and killed two other rattlesnakes.

Corporation Court in Canyon listed payments of some 71 traffic citations during the month of April.

In moving violations, most citations paid were given for speeding. In that category, some 20 were assessed.

Next highest number was 6 given for excessive noise. A total of five each were paid for both failure to grant right of way and running stop signs.

Two citations each were paid for improper start from parked position, illegal u-turn, running red light, impeding traffic, and unsafe change of lane.

Majority of citations for non-moving violations were given for illegal parking, wrong side of street, with six.

Three citations were paid for parking in a fire lane, with one each being assessed for parking in a no parking zone, and parking on the roadway.

Bufs To Depend On George Allen

West Texas State University Bufs are looking forward to a strong year, according to head football mentor Joe Kerbel.

One of the bright spots in Kerbel's lineup is George Allen. "Allen has improved more this spring than in his three previous seasons combined," says Kerbel about the giant

senior tackle.

"He's learning to make better use of his size and speed, which are his greatest assets," Kerbel continued.

This points to a good year ahead for the Longview's Womack High School graduate. Big George, as he is popularly known, stands 6-7 and weighs in the neighborhood of 250 pounds, which is the kind of neighborhood most football coaches prefer.

Since George joined the Buff squad he has had a list of advances which began his freshman year when he appeared on the varsity team. He lettered in both his sophomore and junior years and was the starting left tackle on offense nearly all last season. By the close of spring practice this year he was firmly established in that spot.

Allen is the biggest Buffalo, and is also the fastest lineman on the squad, according to Kerbel.

Pro scouts have expressed the view that Big George can add 25 pounds to his rather lean frame, making a grand total of 275, and lose little or no speed or quickness.

Away from the gridiron, George is a model student.

"George eats, sleeps, studies, watches television, drinks water and plays football, although not necessarily in that order," Kerbel remarked.

Allen's grades are well above average. His grade point average for last semester was the best among the tackles. George is a physical education major and is thinking about a career in coaching and teaching, but not before he finds his niche in pro football.

"Much of our success will depend on what kind of season George has in 1965," Kerbel said.

Boy Rescued After Tumbling 35 Feet

A 12-year-old Lubbock boy received a fractured pelvis in an accident Thursday in Sunday Canyon at Palo Duro Canyon. Royce Billingsley, son of Mr. and Mrs. Don Billingsley, fell some 35 feet when a cliff cave way under him.

The youngster landed on a ledge which kept him from rolling to the bottom of the canyon some 200 feet deep.

Canyon emergency unit corpsmen, Randall County Sheriff deputies and volunteers helped rescue the boy from the ledge.

The boy was removed from the ledge by stretcher, which was lowered and then pulled up with the boy strapped to it.

Royce was taken to Neblett Hospital and released Friday morning.

Attending physician said he would have to remain in bed for several weeks.

The youngster was with a group of sixth grade students from Lubbock Christian School visiting the canyons.

"He was lying down on the cliff looking at some of the boys below him," said a mother Mrs. Troy Randolph who was with the group. "The cliff gave way, and he fell."

A Tulsa boy, James Warwick, fell Thursday afternoon at Rock Slide in the state park. Warwick was with a group from Tulsa visiting the canyon. He sustained minor injuries.

CANYON'S emergency unit, members of the Randall County Sheriff's Department and volunteers lift Royce Billingsley, 12, of Lubbock over a cliff after he fell some 35 feet last Thursday afternoon. The accident occurred in Sunday Canyon at Palo Duro Canyon State Park. The boy was listed in good condition in Neblett Hospital and released Friday.

Ministers of the Canyon area were guests of the supervisors of the Randall-Potter Soil Conservation District Monday during an afternoon tour.

The tour, held in conjunction with Soil Stewardship Week May 23-30, included viewing Midland Bermuda grass pastures, sprinkler irrigation systems, diversions, terraces, and range use.

According to Joe Batson, work unit conservationist, the tour was a success.

Dennis, a National Honor Society member, has won highest honors in mathematics and science. An outstanding athlete, he won the high jump in the district track meet and was a member of Canyon's state high school basketball champions. He plans to study mathematics or engineering at the University of Texas.

Some of the nation's leading scientists and physicists will address the symposium, including Dr. Gerald F. Tape, a member of the United States Atomic Energy Commission, San Diego, California, and Dr. W.T. Guy, Jr., chairman of the mathematics department, University of Texas.

Through use of motion pictures, the students will participate in an actual laboratory experiment at this year's symposium. The first film will give them the data to analyze, while a second will let them compare their analysis with the laboratory results.

Arnold Prichard, manager, gave his annual report in which he told the membership of changing conditions confronting the organization.

He also introduced the board members which includes Ralph Ruthart, Brandley Burrus, Emil Olson, Bill Patke, Crain, Hill and Gruner.
